

Segmenti Michele De Lucchi

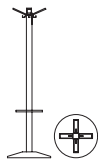

The clothes stand with umbrella holder, 5160, is characterised by the simplicity of its design and the upper clothes hanger element available in the same colour also in the wall version.

A complete series of office accessories, Segmenti is characterised by the vast range of types, coordinated within a strictly formal design and with one eye on practical use. The geometric shapes of the series, always current, suit every type of furniture. Offered with the desk and the computer workstation are the four-part plastic stationery / disk holder; the stackable document tray, also in plastic; the desk set and one desk pad of different dimensions.

All items in the series thus enable familiar work or study tasks to be carried out with great practicality.
